# PIPEMINDER H

PIPEMINDER H

SMART PRESSURE MONITORING FOR TRANSFORMED NETWORK MANAGEMENT

DATA LOGGING

ADVANCED INSIGHTS

NETWORK CALMING

PIPEMINDER-H is a fully integrated, hydrant mounted 4G smart pressure monitoring tool, providing utilities with an understanding of pressure distribution and transient activity.

Easy to deploy, **PIPEMINDER-H** fits directly onto wet or dry (charged) barrel hydrants and comes with its own lockable security cover.

The combination of this sophisticated monitoring device, a modern web-based data integration platform (**RADAR**) and data interpretation via automated tools provides a new level of clarity and appreciation of network events and risks to supply.
